DIARY NOTES

DD/S

6 June 1966

1. At the Executive Committee Meeting this morning:

A. Clocks: The Director complained that the clocks in his suite of offices were out of phase. I called [redacted] to be sure that this matter would be taken care of immediately. 25X1A
25X1A

[redacted]

2. Mr. Helms--Rockefeller Public Service Award: Clark Clifford was named as a reference in support of Mr. Helms' nomination. Colonel White called to ask that we prepare a letter from Clark Clifford to the Selection Board on behalf of Mr. Helms. Action was given to [redacted] 25X1A

25X1A 3. [redacted] Dedication Ceremony: Colonel White discussed the program with Mr. Helms and it was agreed that Mr. Helms would handle the dedication and the remarks, with Colonel White not actively participating. I passed this information to [redacted] so that the program could be changed. 25X1A

25X1A 4. I had lunch with [redacted]. He informally advised me that [redacted] will probably accept the two proposals for the staffing of the Operations School/OTR with DD/P careerists and the identification of Support positions in DD/P and the eventual taking over and filling of these positions by Support careerists. [redacted] is on leave and will return on Monday. 25X1A

25X1A 5. Support School: [redacted] a Support Career Trainee en route to [redacted] advised, in the course of my discussion with him, that the Support course could well give more time to Travel training. He advised that they had only one and a half days and this is not enough in view of the importance that this plays in the Support officer's responsibilities. 25X1A

6. Psychological Services Program: Dr. Tietjen raised a question as to the future of the Psychological Services Program of his Office. This was occasioned by the Director's requirement on DD/I and ONE to have a psychological input into the consideration of national estimates. As a result [redacted] of TSD was 25X1A

25X1A assigned to ONE on a temporary basis. It is understood that DD/I is now thinking of setting up a psychological capability of its own as part of its analysis-production process and it is turning to [] as to the manner and means by which this can be accomplished. Dr. Tietjen feels that his staff in this area is being bypassed and he wonders whether or not this is a fundamental change in his program. I advised that I would take up this matter with DD/I, but my first reaction is that Dr. Tietjen's psychological staff has never been publicized or advertized and very few people know of its capabilities and in some cases even its existence. On the other hand, [] is widely known and has been very active in this field and it was quite logical that they should turn to the person in the Agency who enjoys eminence in the psychological field.
